REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention features including *an insulating gas pocket between the bottom of the outer pipe and the inner bottom plate* is not found in the prior art either singly or in combination. The closest prior art is GB 907,504 which discloses outer and inner pipe plates but not an insulating gas pocket and while the Office cited art in this application discloses insulating gas pockets, there is not enough motivation such that one skilled in the art would combine those references to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven B. McAllister can be reached on 571 272 6785. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
